FOOD FOR SPECIAL MEDICAL PURPOSES (FSMP)

For the dietary management of phenylketonuria (PKU). Dispensed by prescription. Glytactin BUILD 10 is a metabolic formula for PKU patients. Each packet contains 10 grams of Glytactin protein, now with only 10 mg Phe per serving, the optimal blend of glycomacropeptide (GMP) and amino acids, designed to enhance the protein content of a low Phenylalanine (Phe) diet. A neutral tasting versatile powder to be taken alone or incorporated into beverages and low protein foods. Can be used as a 10 gram low-Phe Glytactin protein booster for any PKU formula.

IMPORTANT NOTICE

Must be administered under medical supervision only. Not suitable for use as a sole source of nourishment. Protein in prescribed amounts must be supplemented to completely meet phenylalanine requirements. For enteral use only. Suitable for individuals with PKU over 3 years of age.
